

Your Weekly Wardrobe Jazz

Eyebrows frame your face, especially your eyes. If you have great eyebrows you can add mascara and lipstick and boom, out the door!

This is great in theory, but if you are like most of the women I work with your eyebrows have faded, were never great to start with, or have fallen out so that you now have to draw them in. For all my adult life, I have had to color my eyebrows and then they started getting more sparse so I didn't have much to color! Finally, I said, "I'm going to get eyebrows!" And I did. Cookie Bandel owns Studio Bella and has been featured in Austin Woman magazine. She is a permanent makeup artist. Really, I mean an ARTIST! She gave me eyebrows and my life changed forever! I have had my brows for 2 years now and they still look great. Not one person has ever asked me if they are tattooed. My hair is white blonde, and my eyebrows are a beautiful soft taupe and work perfectly for my coloring.

Cookie and I discussed what I wanted to achieve. I brought in my favorite brow pencil and used it to color my brows exactly as I wanted them and then she took lots of pictures from different angles and distances. Below are pictures of my process and my brows today, 2 years later. I never have to put on eyebrows again! <https://www.studio-bella.com/>
